Dt. 31.12.2024

Dear friends,

On December 26, 2024, humanity was excited to hear from The Parker Solar Probe, that it had soared closer to the Sun two days ago only at 17.23 hours IST. This is the fastest manmade object, traveling at an awesome speed of 6,92,000 km/hour, ever closest to our Sun at 1,700°C, while maintaining its equipment temperature at about 28°C, with is a scientific and technological marvel.

We too had similar excitements in 2024 at the Society of Nuclear Medicine India, when we presented the largest number of abstracts to the International Conference on Hybrid Imaging, 2024 (IPET) at IAEA Vienna. This excitement further grew as we were ranked 6th globally for abstract submissions at the Annual Conference of the European Association of Nuclear Medicine 2024 (EANM) in Hamburg and our participation at the BRICS Nuclear Medicine Summit 2024 in Saint Petersburg. Our Esteemed Guest of Honour in SNMICON 2024, Professor Dr. Rudi A. J. O. Dierckx, President of EANM, further raised our excitement to a higher level, when he expressed his delight at the level of student presentations in Coimbatore. *Excitement stirs the spirit – it compels us to share joy and inspire others.*

Today, with AI advancing Clinical Medicine, our collective excitement grows even further. In 2025 we will be sharing our excitement with the world through our Asia Oceania Congress in Nuclear Medicine and Biology 2025 (AOCNMB) in Chennai, the World Congress in Cardiac Imaging & Clinical Cardiology 2025 (WCCICC) in Mumbai, the World Hypertension Congress 2025 (WHC) in Chennai and the and the Asian Oceanian Congress of Radiology 2025 (AOCR) in Chennai. Add them to the regular annual academic feasts like the NCSICON 2025 in Faridabad and APICON 2025 in Kolkata, which usually draw global attention and participation.

Looking ahead in 2025, we are humbled and thrilled to know that the world has turned towards us for knowledge and inspiration. Let's embrace 2025 with excitement, enthusiasm, gratitude and a commitment to share our knowledge, happiness and love with everyone in this world.

Thanking you,

Yours faithfully,

Address:

Institute of Nuclear Imaging & Molecular Medicine,
Tamil Nadu Govt. Multi Super Speciality Hospital,
Omandurar Government Estate,
Chennai. Pin: 600002
